Dear Chris

Sorry I haven't written sooner but I would like to thank all the band for making my 50th birthday party such a success and memorable occasion. Everyone was very impressed with The Vintage Corporation and the following day I was inundated with calls and texts about the party and band. In fact I have been receiving positive feedback as late as Tuesday of this week, some two weeks after the event.

Some of the comments received include my cousin and his wife who brought along my 75 year old aunt. "Usually she asks to go home half way through the night because she is tired and the noise. Being midweek and work the following day this would have suited us and we were expecting her to ask to go home but she didn't! Instead choosing to stay and watch the band to the very end" The same Aunt has asked me to let her know if I hear of the Vintage Corporation playing anymore events locally as she would very much like to come and see you again.

Other comments have included specific comments about how good it was to see a band with three individual lead singers, Karl voice, Kirstys performance, Graham sax playing and Peter on the drums. Comments have also said how professional everyone is, how well you all perform as a team and so much you all looked as you were all enjoying yourselves. Several friends have also mentioned they have your business card so they can consider the Vintage Corporation for future events including a friend who is involved with the local Sount Asociation, a friend who is involved in arranging yacht club events and several friends are lobbying for The Vintage Corporation to be included on the performers list for this years local Camra Beer Festival. I also understand Phil the manager at East Tilbury recreation Club has already agreed terms with you to return two occasions later this year although dates have yet to be set. Please do let me know when you will be performing these events as I know of over a dozen people who already wish to purchase tickets to either see you again or who unfortunately missed my party and have heard so much about you that they now want to see you.

Thanks once again for all your efforts in making this a success and although I wish you all well for the future, based on your performance and subsequent comments I am sure this is guaranteed in 2011

Looking forward to seeing you all again sometime in the future

Best regards

Graham G Horsler
